PEL has been operating and maintaining solid propellant plant of ISRO at SHAR, Sriharikota for the past 10 years

CONTENTS RESULTS SUMMARY FINANCIAL OVERVIEW WAY FORWARD APPENDIX

Now

PSOM-XL for ISRO

Main motor – ISRO continues to produce on their own

The company has received a letter from Andhra
Pradesh Industrial Infrastructure Corporation (APIIC)
for provisional offer of 202 acres of land at
Routhsurmala village in Chittoor district of Andhra
Pradesh for establishing a unit to manufacture Solid
Propellant.

PSOM-XL strap on motors (6)

- ISRO to outsource

production to PEL

(trial order execution going on currently)

RESULTS SUMMARY

INDUSTRIAL LICENSES RECEIVED FROM DIPP

Product	Award Date
Site Mixed Explosives	17-Jun-16
Military fuses of all types including filling and assembling	01-Jul-15
Munition 20 mm and above including filling and assembling	01-Jul-15
War heads of all types including filling and assembling	01-Jul-15
Flexible Liner shape charge	11-Jun-15
Explosives Reacting Armour	11-Jun-15
Single Base Propellant	11-Jun-15
Ammunition of 40mm and above calibre	12-May-15
Rockets and Missiles	12-May-15
Mines related to Defence	12-May-15
Bombs related to Defence	12-May-15
Cartridge Explosives	12-May-15
Site Mixed Explosives	01-May-15
Mob Dispersion devices	20-Apr-15

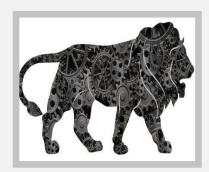

GROWTH DRIVERS

Premier Explosives

limited

Defence Procurement Policy 2016; linking it to "Make in India" policy, created the top priority procurement category, Indigenously Designed Developed and Manufactured (IDDM), which will be an encouragement for local entrepreneurs.

Strategic Partnership Policy and Defence Procurement Organisation formulated in May 2017 are expected to create a large defence eco system in the coming years.

Indian explosives industry, estimated to be INR 40 bn p.a., is considered among the top 5 in the world. Coal requirements for the power sector are projected to reach to about 1,070 MT by 2020. Out of this, domestic coal supply is projected to increase to 756 MT by 2022, (Source: Industry)

Defence manufacturing in India is at inflection point, with capital expenditure expected at \$245 billion in next decade. At 30 % of this capex, offset market is estimated at \$75 billion (Source: CII, Business Standard)

Having been a member of Missile Technologies Control Group (MTCR), India now can access advanced technologies.

KEY STRATEGIES

Premier Explosives

limited

Part of the 'Make in India' initiatives

RESULTS SUMMARY

Backward integration for solid propellants - raw materials and insulation

WAY FORWARD

Started manufacture of Chaffs to Air force and supplied first order in April 2017

Market expansion in explosives and defence business with new Industrial licenses obtained

Acquired 250 acres land for new defence projects

Developed Air Target Imitator, which is expected to be given IDDM recognition

Signed NDAs and MOUs with global missile players

Plans to enter the ammunition business and negotiating for technological tie-up with foreign **OEMs**

Incorporated a subsidiary company PELNEXT DEFENCE SYSTEMS PVT LTD for manufacture of ammunition

Explore export opportunities for NHN based detonators

Capacity expansion in solid propellants and detonating fuse

Developing electronic detonator with new features

Reap offset opportunities

Focusing on exports to South East Asia and **Africa**

PREMIER EXPLOSIVES LIMITED

Company in India to have deployed indigenous technology for manufacturing explosives

- Company in the world to produce safer and greener NHN detonators on commercial scale replacing ASA detonators
- And only Indian private entity manufacturing and supplying solid propellants to India's prestigious missile programmes and reached a milestone of delivering 1000th Booster grain for Akash missile in July 2016

PREMIER EXPLOSIVES LIMITED

Explosives

limited

Who we are

A leading manufacturer of high energy materials for industrial and defence applications

Our facilities

Six manufacturing facilities located in M.P, Maharashtra, T.N. & Telangana

User industries

Defence, Mining and infrastructure sectors

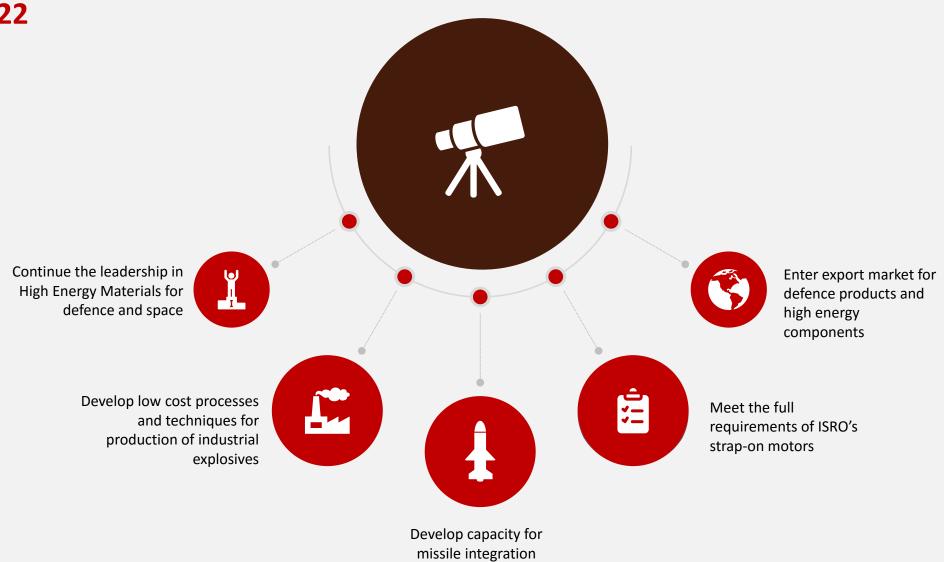

People

Highly trained manpower in handling high energy chemicals

Premier Explorives

On going	Under development
Chaffs and flares Air target imitator (for Air Defence, Indian Army)	 70mm Rockets Air Glide Bombs Re- graining of existing Missiles Indigenization of Power cartridges Canopy severance system

Missile value chain

Forward integration

- Solid propellant
- Rocket motor hardware
- Thermal insulation
- War-heads
- Hot integration

Backward integration

- Ammonium Perchlorate
- HTPB
- RDX / HMX
- CL20
- Single base, Double base, Triple base propellants

RESULTS SUMMARY

FINANCIAL OVERVIEW

Counter-measures

Premier Explosives

limited

Ammunition

Chaffs and flares

- No supplies for the last few years
- Naval and Army requirements can be huge
- International market also can be addressed

Tie up with international OEMs for technology

Outsource hardware and fuses from Indian vendors

Cater to Indian defence forces and select international markets

Technocrats at the helm

Dr. A. N. Gupta | Chairman & Managing Director

RESULTS SUMMARY

Having earned his Masters degree in mining engineering, he has developed a penchant for learning and R&D. He has actively involved himself in product development projects of defence, new products and processes. A recipient of "Pickering and ISM Medal" from, Indian School of Mines, Dhanbad and Gold Medalist from Mining Geological and Metallurgical Institute of India. He is a Member of Society of Explosives Engineers, U.S.A. and was Chairman of Explosives Development Council constituted by Government of India and Chairman of Explosives Manufacturers Association of India. He has been given Asia Pacific Entrepreneurship Award 2015 in the Outstanding Category. He authored various articles about high energy materials including "Scaling up of CL-20 production to pilot plant scale" presented at the proceedings of National Symposium on Trends in Explosive Technology. He has been conferred Doctor of Science (Honoris Causa) by Gulbarga University in recognition of his rare distinction and distinguished contributions to the field of science and technology. He is also awarded HEMSI Honorary Fellowship 2016 by High Energy Materials Society of India.

Mr. T. V. Chowdary | Dy. Managing Director

A chemical engineer with over 36 years of experience in production of explosives, detonator, petrochemicals, coal tar pitches & enamels, mushrooms and solid propellants. Having project execution as his forte, he is excellent in HR management and is a steadfast trouble-shooter.

Col. Vikram Mahajan (Retd.) | Director (Marketing)

27 years of working with army, he holds an M.Tech & MBA in marketing. He has extensive knowledge about opportunities in defence sector.

Sharp research focus has lead PEL won several awards including the "Defence Technology Absorption Award 2007" from DRDO, presented by the Prime Minister of India

Research and Development

Explosives

limited

Company ensures and thrives to remain at the forefront of technology in its field and new product development

Collaboration with Gulbarga University, IIT Madras and BITS Pilani for research in high energy materials

World-first in production of NHN based detonators on commercial scale. It is safer and greener than traditional ASA. Acknowledged as a break-through after about 75 years. Licensed the technology to a US company for a price of USD 100,000

Developed solid propellants for various missiles including a combustion-stable propellant for Long Range Surface to Air Missile (LRSAM)

Laboratories of the company have been certified by DSIR and accredited by NABL
